RE: Committee Recommendations

The Legislation Committee met on March 11 and referred one item to Commission.

**1. AB 147 (Dickinson)**

AB 147 would expand the existing eligible uses of developer impact fees for a broader range of transportation improvements, including improvements to transit, bicycle and pedestrian facilities. These improvements are likely to be more acceptable and more relevant to addressing the impact of a proposed development than roadway or bridge widening projects in built-out urban areas.

**Committee Recommendation: Support AB 147 (Dickinson)**
